  - Attachment 3. Photos – Wheat Seeds Delivery, Distribution and Sowing ..... 24**

- Component 2. Demonstration of diversified agricultural biodiversity-friendly practices and products through adapted wild edible plants (local vine and wheat varieties)
- Outcome 2.1. Increased area devoted to sustainably managed agricultural biodiversity through mainstreaming of diversified practices and products in Samtskhe-Javakheti Region enhancing resilience to climate change
- Output 2.1.3. Participatory and sustainable management practices identified, planned and implemented on at least 6 pilot sites that will support traditional crop varieties and adapted wild edible plants to improve local diversity
- Activity 4 [2.1.3.4]. Implement planned measures of sustainable management practices on 6 demonstration pilot plots for on-farm (landraces) conservation and utilization to promote use of local agrobiodiversity (vine and wheat landraces) in participatory way with involvement of local stakeholders including farmers, local communities and researchers.

## 1. RATIONALE

### 1.1. Background

This report was prepared in line with the project Activity 2.1.3.4 under Component 2 and related status of deliverables.

Report contains necessary information to evaluate the state of implementation of the Activity with respect of the project activity plan and how far project's targets have been achieved.

### 1.2. Implementation Period

Activity was Implementation in the period of August – November 2023.

## 2. IMPLEMENTATION OF PLANNED MEASURES OF SUSTAINABLE MANAGEMENT PRACTICES ON DEMONSTRATION WPSs

### 2.1. Purchasing and Delivery of Wheat Seed Materials to Farmers at Respective WPSs

Two agreements on purchasing wheat seeds was concluded between (1) REC Caucasus and Logistics and Service Company LLC on 25<sup>th</sup> of September, 2023 and (2) REC Caucasus and I/E Akaki Lomitashvili on 25<sup>th</sup> of September, 2023. The seeds were certified by the Scientific-Research Center of Agriculture in 2023.

The suppliers were selected through the tender, which was announced on REC Caucasus's web-page on 13<sup>th</sup> of September, 2023. The supply was divided into 4 LOTS, based on the main locations of wheat producer farmers. Deadline for the submission of applications on 4 LOTS (in accordance with main 4 locations were seeds have to be distributed in the region) was 20<sup>th</sup> of September, 2023. Two applicants participated in the Tender. Applicant 1 - Logistics and Services

Company of Agriculture LLC participated in all 4 LOTs and Applicant 2 - I/E Akaki Lomitashvili participated in one LOT – LOT 4.

Based on the offered conditions and prices, Applicant 1 - Logistics and Services Company of Agriculture LLC won 3 LOTs (LOT 1, LOT 2 and LOT 3) and took responsibility to supply certified wheat seeds on 3 locations:

- Village Vachiani of Akhalkalaki Municipality;
- Settlement Aspindza, Aspindza Municipality;
- City Akhaltsikhe, Akhaltsikhe Municipality.

Applicant 2 - I/E Akaki Lomitashvili won LOT 4 and was contracted to supply certified wheat seeds in Village Ude, Adigeni Municipality. Amount offered by Applicant 2 was sufficient to satisfy demand in Adigeni Municipality and key issue was the offered price for LOT 4. Price for LOT 4 offered by applicant were the following:

- Applicant 1 - Logistics and Services Company of Agriculture LLC – 3860 GEL (including transportation costs), and
- Applicant 2 - I/E Akaki Lomitashvili (including transportation costs) – 3800 GEL.

The wheat seeds were certified by the Scientific-Research Center of Agriculture in 2023. The wheat seed providers supplied certified seeds of endemic wheat variety “Akhalsikhe Tsiteli Doli”, 21,130 kg in total. The seeds were transported to the following four locations in Samtskhe-Javakheti Region:

- Village Vachiani of Akhalkalaki Municipality;
- Settlement Aspindza, Aspindza Municipality;
- City Akhaltsikhe, Akhaltsikhe Municipality, and
- Village Ude, Adigeni Municipality.

The wheat seeds were transferred to farmers and their household members at respective four locations, as mentioned above, on 3<sup>rd</sup>, 4<sup>th</sup> and 5<sup>th</sup> of October, 2023 (see *Attachment 1. Example of Acceptance Act on Delivery of Wheat Seeds to Farmers (signed by a Farmer and REC Caucasus)* and see *Attachment 3. Photos – wheat seeds transfer and sowing*). The locations were selected upon the agreement with farmers and suppliers.

Field meetings and seed transfer with farmers were attendees by the farmers themselves and the members of their households. Meeting was attended by 105 direct beneficiaries, where women were 21 and men were 84. During the distribution of wheat, farmers were consulted how to sow the wheat seeds, treat the plant and support germination.

## **2.2. Implementation of Planned Measures**

Sowing of wheat seeds began from 5<sup>th</sup> of October, 2023. Crop/Wild Relatives Expert helped farmers with consultations on sowing the seeds in a proper way, preparation of soil, treatment measures, spraying and etc. The soil samples were taken by the specialist from the Scientific-Research Center of Agriculture for Laboratory research to give farmers respective recommendation on the nutrients of soil and its treatment.

### 2.3. Summary of Implemented Measures

Eighty-six selected head-of-household farmers (primary operators) received 21,130 kg of certified Meskhetian Aboriginal wheat variety “Akhaltsikhe Tsiteli Doli”, and contracts were concluded with each of them.

These 86 farmers collectively manage 143 Wheat Pilot Plots (WPSs), where the distributed seeds were sowed across Akhaltsikhe, Akhalkalaki, Aspindza, Adigeni, and Borjomi Municipalities, covering 77.54 hectares of land. Detailed information about the selected Wheat Pilot Plots, head-of-household farmers, beneficiaries, pilot plot locations, number of seeds, and varieties of distributed wheat can be found in Attachment 2.

Of the total 202 beneficiaries, 131 are men (64.85%) and 71 are women (35.15%).

The project emphasizes supporting and empowering women, resulting in the selection of 68 women farmers. One of the 86 selected applicants is a legal person—a limited liability company under Georgian legislation.

Twenty-two out of the 143 WPSs are informally used and need to be registered through the ongoing public registration process in Georgia. Twenty-three WPSs are under rent, and 98 are under co-ownership.

The land of registered plots complies with the requirements of Georgian legislation.

The distributed seeds were planted in five municipalities (Adigeni, Aspindza, Borjomi, Akhalkalaki, and Akhaltsikhe), eight townships (including Vale), and two settlements of townships (Aspindza), spanning across 133 villages in these municipalities.

*Coverage of five municipalities, gender data, volume of transferred wheat seeds and covered area*

#	Name of Municipalities	Beneficiaries				# of WPS	# of Signed Agreements	Volume of transferred wheat seeds (kg)	Sowed Area (ha)
		Women	Men	Women %	Men %				
1	Borjomi	4	5	44.44	55.56	6	4	1455	5.31
2	Akhalkalaki	1	2	33.33	66.67	4	2	545	2
3	Aspindza	46	87	34.59	65.41	78	51	11155	40.86
